### VIA FACSIMILE

Mr. Donald R. Nicholson  
Market Administrator  
10801 Renner Boulevard  
Lenexa, Kansas 66219

Re: November 14-15, 2001  
Federal Milk Order Hearing for Order 32

Dear Mr. Nicholson:

On behalf of Suiza Foods Corporation and Anderson-Erickson Dairy, we hereby request that your office provide the following exhibits and testimony at the upcoming Central Order Federal Milk Order Hearing scheduled for Kansas City beginning on November 14, 2001:

1. Data and information of the same or similar kind and time periods as submitted in each table and appendix in Exhibit 5 in the Mideast Order hearing held on October 23-24 in Wadsworth, Ohio (Table of Contents of Exhibit 5 attached).
2. For at least two representative months in 2000 and 2001, a list of each pool plant, including location, under the order, and the regulatory paragraph under which that plant qualified for that month on the Central Order.
3. For at least two representative months in 2000 and 2001, a list of each nonpool plant, including location, receiving Central Order pool milk diverted to it.
4. For each month from January 2000 through the most recent month for which data is available, producer milk by state and, if possible, county. For producer milk pooled that is produced in California, please provide the average federal order Class I location value for the total quantity of that milk.
5. For each month from January 2000 through the most recent month for which data is available, the total quantity of milk caused to be diverted by and the total quantity of milk pooled at supply plants located outside the marketing area.

THELEN REID & PRIEST LLP

November 2, 2001

Page 2

6. For each month from January 2000 through the most recent month for which data is available, the total quantity of milk diverted to any plant located 500 miles from the nearest plant in the marketing area.

7. For each month from January 2000 through the most recent month for which data is available, the total pounds of Class II, Class III and Class IV milk pooled at pool plants pursuant to 7 C.F.R. § 1032.7(e), not including the pounds of milk pooled at pool plants described in subparagraph 1032.7(e)(1).

8. For each month from January 2000 through the most recent month for which data is available, the pounds of fluid milk products transferred by supply plants to distributing plants regulated under any other Federal order.

9. As to proposal 5 in the Hearing Notice, assuming that the proposal is adopted as written, please be prepared at the Hearing to provide an explanation (either written or oral) for the record of how your office would administer that section as amended.

Of course if this request duplicates another request to your office or material that your office was planning to provide regardless, we do not expect duplicate effort on your part. Moreover, we are always mindful that certain data or information may not be available to the public on confidentiality grounds. To the extent that alternative data may be grouped or otherwise provided, we request that best efforts be made so as to permit the material requested to be submitted in some useful fashion.

If you have any questions, please contact me at (202) 508-4159. If the material can be sent via federal express in advance of the hearing, I would appreciate it. Our federal express account number is 0200-1130-0.

With best regards,

A handwritten signature in dark ink, appearing to read "Charles M. English, Jr.", with a stylized flourish at the end.

Charles M. English, Jr.

### USDA Equal Opportunity Policy

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact the USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Jamie L. Whitten Building, 14th and Independence Avenue SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an Equal Opportunity provider and employer.

Some of the information requested by Mr. Charles M. English were to be included in the exhibit prepared by the Market Administrator and are referenced accordingly.

1. Data and information of the same or similar kind and time periods as submitted in each table and appendix in Exhibit 5 in the Mideast Order hearing held on October 23-24 in Wadsworth, Ohio (Table of Contents of Exhibit 5 attached).

\* See Market Administrator's Exhibit.

2. For at least two representative months in 2000 and 2001, a list of each pool plant, including location, under the order, and the regulatory paragraph under which that plant qualified for that month on the Central Order.

\* See "English No. 2" table attached.

3. For at least two representative months in 2000 and 2001, a list of each nonpool plant, including location, receiving Central Order pool milk diverted to it.

\* See Market Administrator's Exhibit --  
Table No. 9 "Unregulated Manufacturing Plants December 2000," and  
Table No. 10 "Unregulated Manufacturing Plants, July 2001."

4. For each month from January 2000 through the most recent month for which data is available, producer milk by state and, if possible, by county. For producer milk pooled that is produced in California, please provide the average federal order Class I location value for the quantity of that milk.

\* See Market Administrator's Exhibit,  
Table No. 13 -- "Central Federal Milk Order Marketings by State and County --  
September 2000"  
Table No. 14 -- "Central Federal Milk Order Marketings by State and County --  
September 2001"

\* California producer milk pooled on the order from March through September 2001 was priced at an average location value of \$1.6267 per hundredweight. The range was from \$1.6146 in March 2001 to \$1.6317 in July 2001.

5. For each month from January 2000 through the most recent month for which data is available, the total quantity of milk caused to be diverted by and the total quantity of milk pooled at supply plants located outside the marketing area.

\* See "English No. 5" table attached.

6. For each month from January 2000 through the most recent month for which data is available, the total quantity of milk diverted to any plant located 500 miles from the nearest plant in the marketing area.

\* Milk diverted to plants located 500 miles or more from the nearest plant in the marketing area is restricted since it is from less than three handlers. These plants would be located in the states of California and Montana and can be found in Market Administrator Exhibit, Tables 9 and 10. Also see "English No. 6," a map with the plants used to determine the 500 mile radius.

7. For each month from January 2000 through the most recent month for which data is available, the total pounds of Class II, Class III and Class IV milk pooled at pool plants pursuant to 7 C.F.R. § 1032.7(e), not including the pounds of milk pooled at pool plants described in subparagraph 1032.7(e)(1).

\* As noted in table "English No. 2," Prairie Farms Dairy, Inc. is the only handler qualifying pursuant to 7 C.F.R. § 1032.7(e). Therefore the data is considered confidential.

8. For each month from January 2000 through the most recent month for which data is available, the pounds of fluid milk products transferred by supply plants to distributing plants regulated under any federal order.

\* See Market Administrator Exhibit, Table No. 16 "Central Federal Order Supply Plant Bulk Receipts and Dispositions."

9. As to proposal 5 in the Hearing Notice, assuming that the proposal is adopted as written, please be prepared at the Hearing to provide an explanation (either written or oral) for the record of how your office would administer that section as amended.

\* During the months of August through November, the producer receipts delivered to a handler described in §1032.7(a), (b) and (e) divided by 0.25 will equal the amount of producer milk that may be pooled by that handler. Similarly, 0.20 would be used in the calculations for December through July.
